Message from Our Patron | Dr. Mohan Lal Gero

You and I have an opportunity to inspire those around us. Each person that enters our lives, a stranger or a lifetime family member is going to see something within us. To make this world a better place, let us focus our minds on having a positive and loving influence. That influence will have a butterfly effect unlike any other because it comes from you.

This universe that we live in allows us to create wonderful things all around us. Let us begin with a smile. When you smile at someone, something happens and in most cases, you will receive a smile back.

What if you saw someone struggling and you were to help that person? If each one of us could take just a few minutes everyday to help someone in need, wouldn't this world be a better place?

By being yourself and teaching people through your everyday actions, you become an inspiring individual.

Take that power that you have within and share it with the world in the most loving way that you know how.
